### Protecta FR Board

**Penetration Seal Classified for use in flexible, timber & solid walls and solid & timber floors**

A board used to seal around cables, cable trays, metallic pipes, composite pipes and plastic pipes, with and without insulation to form a penetration seal to reinstate the fire resistance performance of wall and floor constructions, where they have been provided with apertures for the penetration of services. Protecta FR Board is supplied coated on one face, referenced 1-S, or on both faces, referenced 2-S. The board or boards are then cut to allow the penetration of the required services, before being inserted into the aperture in the wall or floor.
